a következő A lanyom laptopjának az akkumulátora csak pár percig bírta, tehát csak a szünetmentesítő funkciót látta el. Mará már azt sem, nem indult el vele a gép hiába volt hálózatra csatlakoztatva.

<http://schlammatlas.de/en/node/18884>

Mivel tudtuk, hogy nagyon gyenge Így vettük. Nem is foglalkoztunk az akksin lévő LED-ekkel, amik nem világítottak. Akciósan, szaküzletben vettünk újat. Igen am de az azon lévő LED-sor sem világít, pedig a töltöttség 68%-on van a gép szerint. Mivel én nem értek a számítógéphez, így tisztelettel kerek segítséget, tanácsot, mire való az akksin a LED sor, ha kell mikor kell világítani, ha nem világít územszerűen akkor minek van benne? A gép elindul, a kártya működik szépen, de ha teljesen kikapcsolom a gépet és lehúrom tapról, megeszi az akksit. Az igazsághoz hozzátartozik, hogy ez a gép gyárilag 3945ABG kártyával van szerelve, és talán 23 típusnál többet hivatalosan nem támogat BIOS-ból tiltva. Ez a tiltás feloldásra került, de nyilván van némi hardveres inkompatibilitás az ügyben. Orulnék, ha tudna valaki támpontot adni, mi okozhatja ezt a terhelest. Ugyanakkor akku behelyezésekor elindult a gép, ill. Ti mit néztek meg Találkozott valaki ezzel a problémával Tippetek van esetleg Minden javaslatot előre is köszönök. HP Compaq Presario V2000 Szerbusztok! Egy kérdés, a fent nevezett laptopnak wifi-be van kapcsolva de még sem találBe mentem az eszközkezelőbe és ott még azt írja hogy a Wireles megfelelően működik. Ja és be van kapcsolva. Ha tudtok akkor segítsetek. Varom a válaszokat. Udv! HP Compaq NC6220 laptop maximalis kezelt HDD méret Udvözlés. Kedves Tanyalakok. A következő probléma megoldásban kernem segítségeteket HP Compaq NC6220 laptopban kellene HDD-t cserélni. Az lenne a kérdésem, hogy tud-e esetleg valaki arról, hogy ez a gép mekkora kapacitású merevlemez-t kezel. Eredetileg a gépben 40GB lakik de szereltek 60GB és 80GB méretűekkel is. A helyi üzletben a legkisebb kapható meghajtó 160GB de valahol olvastam, hogy a gép csak 120GB méretig kezel lemezt így mielőtt megvásárolnam szeretném tanácsokat kerni. Válaszaitokat előre is köszönöm. Similar manuals You can write in English language into the forum not only in Hungarian. September 2005.
