Eastern woods family practice

Blanchard Valley Health System has found a home in the sprawling landscape of northwest Ohio. The organization has grown from a single hospital to a comprehensive health system offering a full continuum of care. BVHS continues to grow! Currently, the system serves an eight county area including Hancock, Allen, Putnam, Henry, Wood, Seneca, Wyandot and Hardin. However, the service areas continue to expand as the need for better health care access is identified. Today, BVHS employs more than 3,000 associates. Access to health care is a priority to our family of professionals. Health system medical practices dot the region as specialists rotate through communities. With an eye on growth, BVHS leaders strategically plan for the next generation. The responsibility is passed from one trailblazer to the next as the path to elite health care is paved. Our mission, "Caring for a lifetime," sets a tone for decision-making. Blanchard Valley Health System is prepared to be there with the right care, in the right place at the right time. This drive-up, drop-off event encouraged community members to dispose of expired or unneeded medications safely. Despite cold and windy weather, this group received 10.2 pounds of medications to be properly and safely incinerated. These efforts helped prevent potentially harmful substances from ending up in the wrong hands or contaminating local landfills and water sources. Participants pictured in the event photo (left to right) include Sgt. Schroeder, Carey Police Department, O.R.C. Downer, Wyandot County Sheriff's Office, Klair Ruggiero, University of Findlay pharmacy student, Tenna Rhonemus, BVHS pharmacy supervisor of Outpatient Services, and Ryan Kruse, BVHS director of pharmacy.
