Thank You! Try a different method You are being redirected. If the page fails to redirect click here. Disc Playback Radio Functions Aux Connection Audio Section Display Features Remote Control Disc Playback Disc Compatibility: The Pioneer DEH-150MP supports audio playback of CD-Audio, CD-TEXT, CD-R, and CD-RW discs. MP3/WMA/WAV Playback: This unit can play MP3, WMA and WAV files recorded on CD-R and CD-RW discs in ISO9660 Level 1/Level 2, Joliet, and Romeo formats. MP3 files with a bit rate from 8-320 kbps, WMA files with a constant bit rate from 48-384 kbps, and WMA files with a variable bit rate from 48-384 kbps are supported. The unit also supports 8/16-bit WAV files. The unit is compatible with ID3 Tags and will display artist, folder, file, and album name, plus comments. Up to 8 directories, 99 folders and 999 files per disc are recognized by this unit. File/Track Name List: The Name List feature displays a list of MP3/WMA folders and tracks on a loaded CD, so you can easily access your music. The Name List will also display the list of track titles on a CD Text disc. Off Insert/Eject: A CD disc can be inserted or ejected with the power off. When a disc is inserted with the power off, the unit will automatically power up and begin playback. Auto Off Eject: When you eject a disc, the unit will automatically power off (unless you switch sources before ejecting the disc). Installation Angle: Optimum CD playback performance is obtained when the unit is installed at an angle of less than 60-degrees. Radio Functions Supertuner IIID AM/FM Tuner: The Supertuner IIID features Feed Forward Control, which avoids multi-path interference. This pre-detection of allows quick control of filters and results in less distortion. In addition, the Supertuner IIID creates enhanced stereo stereo during multi-path interference, unlike conventional tuners that collapse to monkey. Digital processing reduces distortion and improves signal to noise ratio and stereo separation. Advanced analog technology improves signal processing sensitivity. BSM (Best Stations Memory): The BSM (Best Stations Memory) function allows you to automatically store the six strongest stations under the 1-6 preset buttons of the current tuned band. The tuner has 3 FM banks and 1 AM banks. You can store 6 presets for each bank giving you a total of 18 FM presets and 6 AM presets. Local Tuning: Local search tuning allows you to tune only those radio stations with strong enough signals for a good reception. There are 4 levels of FM sensitivity and two levels for AM. The highest settings allow the reception of only the strongest stations, while the lowest settings allow you to receive progressively weaker stations. RDS: The Radio Data System (RDS) displays radio broadcasting information as an artist, title and album when listening to compatible AM/FM stations. Aux Connection Auxiliary Input: The DEH-150MP is equipped with a 3.5 mm front panel of stereo minijack auxiliary input to connect external components such as a portable digital audio player. Audio Section 24 Bit D/A Converter: The pioneer head unit in givensh uses a 24-bit analog digital converter for superior sound quality. MOSFET Amplifier: The DEH-150MP is equipped with a MOSFET amplifier. Compared to conventional energy supplies, the MOSFET amplifier circuit is smaller and more efficient, and offers greater power with less distortion and absolutely selfbitapmoc selbitapmoc nos PM051-HEED le arap aicnetop ed senoicacifepse sal. n'Aiacacifilma ed otuatic led setimAl sol ondujapme s1Ase on eugrop sotia s1Am senem'Allov ne aipmil s1Am y atla s1Am acis'Am acifingis aicnetop s1AM. odagapa/odidnece ed odiur CEA2006 Mixed amplifier stands of tests and power medication of the consumer electronic association (CEA). These standards were developed as a way to compare equally the model power to model to model and between manufacturers. CEA2006 SPEC: 14 Watts RMS x 4 channels (at 4 ohms, 20Hz-20kHz, 1% THD-N) Continuous power output: 22 Watts RMS x 4 channels (at 4 ohms, 50Hz-15kHz, 5% thd) Maximum power: 50 watts x 4 Advanced sound retriever channels: Advanced Sound Retriever automatically improves compressed audio and restores the original recording wealth. Hey the detail, warmth and clarity, the way in which the artist intended it, from all his MP3 and WMA files highly compressed. Through data restoration (especially higher frequencies) that tend to be lost in the digital compression process, Advanced Sound Retriever de Pioneer technology improves audio reproduction almost all the way up to 20 kHz equalizer frequencies: the pioneer ofh- 150MP has an & AMP Presto; Custom eq. The incorporated equalizer offers 7 pre-established sound modes (Powerful, Dynamic, Vocal, Natural, Custom 1, Custom 2, and Flat) suitable for the musical child of his choice. The two personalized modes allow you to manually adjust the EQ of 5 bands of the head unit (80Hz, 250Hz, 800Hz, 2.5kHz, 8kHz) of +/- 6dB. Custom 1 can be established separately for each source; while the Custom 2 presets and the other 5 are shared adjustments used for all sources. Bass Boost The DEH-150MP has a low impulse function that can be used to improve the sound under frequency low. The low impulse function can be established between 0-6. LOBNESS: LOBNESS function compensates for deficiencies in low and high volume sound ranges. You can configure Low Low Function, High or Off. This function allows you to adjust the volume level of each source to avoid radical changes in volume by changing between sources. Adjustments are based on volume level le ratenoc edeup in ho 2 ed refoowbus olos nu razilitu ereiferi s1. mho-4 ed zov ed sanibob noc zov ebod ed onirambus nu o mho-4 ed sovisap srefoowbus sozAeugpep sod a etnemacitrid eudnoc oressart zovata le ratenoc edeup es ,refoowbus ed n'Aicarepo al arap ecelbatse es odmauC ,refoowbus sadilas a otelpmoc ognar ed naibmac n'Albmat arestart arapmAl al ed sadilas sal. ,refoowbus odom ne necelbatse es oressart zovata led sadilas sal odmauC. )osap ojab( refoowbus ed adilas ranoitroporp arap rarugifnoc nedeup es o ,atelpmoc n'Aicarcocesed ed dadicpac noc atelpmoc amag ed adilas ranoitroporp arap rarugifnoc nedeup es soressart secovata ed sadilas sal. zovata led adilas refoowbus / aicanoser ed lanac ed rotpurretnl .Bd21 o Bd6- a ratsuja edeup es n'Albmat FPH led etneidnep ed levin IE .fHO o zH002 .zH061 .zH521 .zH001 .zH08 .zH36 .zH05 ne rarugifnoc edeup es otla osap ed sortilf ed ecurc IE .soressart o sorretaled secovata sol ed adilas al nos adanoiceles amag al ed sal a seroirepus saicneucrf sal ol'As ,FPH le ravitca IA .)osap otla ed ortlif( FPH ravitca etnemelpmis edeup ,soressart o selatnorf secovata us ed s'Avart a ehcuse es aicneucrf ajab ed odinos le euq aessed on odmauC .n'Aiserp atla ed revossorC .)42- a 6+( refoowbus ed aicnanag al y ,)osrever/lamron( refoowbus ed esaf al enoicceles .)Bd21-/6-( ortlif ed etneidnep al enoicceles .)zH 521 o zH001 ,zH08 ,zH36 ,zH05( ojab osap ed ortlif led aicneucrf al ranoiceles edeup ,refoowbus ed adilas omoc arugifnoc es azebac ed dadinu al ed adilas al odmauC :refoowbuS ed lortnoC .adilas ed levin ed lortnoc y esaf ed etsuja ,dadicolev ajab ed ortlif in noc sadagapa on refoowbus ed sadilas o soressart selanac ed sadilas omoc rarugifnoc nedeup es dadinu al ed sadacifilmaerp sadilas sal .soitlov 0.2 ed sarodacifilmaerp sadilas ed rap nu noc atneuc PM051-HEED reenoIP IE :stuptuO pmaerP iloV-0.2 .Bd4+ a Bd4- ed etneidnepedni amrof ed ratsuja edeup es etneuf adaC .soibmac nis MF to a set of speaker tracks, leaving the other set of rear tracks disconnected. The maximum output provided when a 2-ohm load is connected to a set of cables is 70 watts. Show Features Detachable Facial Security: This unit hasFace safety. No facial case with this unit is included. You can buy an optional soft face box (142DFC1X, sold separately) for this unit. LCD W/LED Backlight: The DEH-150MP presents a black background with a white LCD of a 12-characters with LED set-back light. Lighting screen/clock screen: When the clock screen has been activated, pressing and pressing the "SRC" boton turns off the audio output, but the lighting of the screen and the bot. to turn off. When the clock screen has turned off, pressing and pressing the "SRC" boton turns off the unit completely. Even if you have turned off the radio completely, you can see the watch screen by pressing the "Disp" boton. The clock will stay until it turns it off. When the unit is on, you can select between the clock screen or the audio/tuner screen. Remote Remote Control: The DEH-150MP comes with an unqually remote control IR. The remote control allows you to control the volume, change between sources, stop the CD, change the screen and adjust the audio. You can also silence the volume (function that cannot be made from the front panel). Activate and hold the boton to confirm that you are human. Thank you! Try a world of all different
