Reset Password Scroll to Top Home Guillow U.S. Curtiss P-40 Warhawk Balsa Model Aircraft Kit The 4502 U.S. Warhawk is fashioned after WWII's P-40 Warhawk, which frequently served as a fighter bomber, establishing victories in all theaters of war for the U.S. Air Force. The kit contains LASER CUT balsa parts, plastic propeller and wheels, detailed stick on wing covering and rubber band motors. All you will need to complete the model is glue and wire cutters. MiniThe NEW miniModels series contains 6 different flying model kits, three private planes and three military planes. The airplanes can be assembled easily in less than two hours using step by step instructions to guide you in the building process. No cutting of parts or sanding necessary, just a little glue makes these simple enough to construct in one night, making them great projects for parent/child, scouts or other groups. All kits have precision laser cut balsa wood parts for easy building and contain a rubber band motor for long flights. They are perfect models for young pilots to span the gap between our simple toy airplanes and larger model construction kits. Model KitsQuality scale balsa model airplane kits. These model construction kits have scale realism for the super detail fan and light weight for those who build and fly. Each model is a small but faithful replica of an airplane widely known for deeds in wartime or present day popularity. Reset Password Scroll to Top Manufacturer: Guillows Product Code: GUI 0405LC Curtiss P-40 Warhawk Balsa Kit Dispatch From Supplier - Ships in 2-3 Weeks The P-40 earned undying fame as the "Flying Tiger" of World War 2 when flown by General Claire Chennault's Volunteer Group fighting the Japanese in China and Burma. It also saw much service in the Middle East where it was used by Britain's R.A.F. and nicknamed the Tomahawk and Kittyhawk. When World War 2 broke out, the P-40 was the only fighter available in quantity to the U.S.A.A.F., it being the first American single-seat plane to be manufactured in the U.S. on a mass production basis. By the end of the war, over 14,000 planes had been delivered to fighting theatres. Wing Span: 28" Scale: 1/16 Curtiss P-40 Warhawk . GUILLOW'S - Balsa Wood AIRPLANE MODEL KITS.
