The PTCB offers credentials to pharmacy technicians who aim to excel in their field and pursue rewarding careers in healthcare. Our credential program is crafted to empower technicians to collaborate effectively with pharmacists, ensuring safe and effective patient care and service. Explore our online resources to access official and supplementary materials for the PTCB Certification Practice Test, ensuring you are well-prepared to achieve your certification. **FREE PTCB Practice Test 2025** Our sample PTCB Practice Exam is designed to prepare for the Pharmacy Technician Certification Exam (PTCE) final test 2024-2025. There are 5 full-set question-and-answer quizzes for free. Note that our PTCB Practice Test 2024 questions are not the actual PTCE exam questions; they will help you make better PTCB test preparation online. Knowledge Domains and Areas Each practice test has 50 questions and answers, covering topics such as Medications, Federal Requirements, Patient Safety, Quality Assurance, Order Entry, and Processing. PTCB Certification 2025 Individuals who meet eligibility requirements and pass the appropriate PTCB certification exams may use the CPhT (Certified Pharmacy Technician) or the CSPT® (Certified Compounded Sterile Preparation Technician®) designation. To maintain certification, the PTCB certificate must be recertified by PTCB's requirements. Certifications and certificate programs serve different purposes. Certifications assess an individual's mastery of job knowledge, require Continuing Education, and award an acronym after one's name. Certificate programs evaluate learning outcomes from a PTCB-Recognized Education/Training Program, do not expire or require maintenance, and do not award an acronym after the name. Certifications programs Certificate programs Certified Pharmacy Technician (CPhT) Medication History Certificate Certified Compounded Sterile Preparation Technician (CSPT) Technician Product Verification Certificate Advanced Certified Pharmacy Technician (CPhT-Adv) Hazardous Drug Management Certificate Billing and Reimbursement Certificate PTCB Exam 2025 Candidates must pass the Pharmacy Technician Certification Exam (PTCE) to earn the CPhT credential. PTCB's CPhT Program is nationally accredited by the American National Standards Institute (ANSI) and the National Commission for Certifying Agencies (NCCA). Name of the Exam PTCE Test Mode computer-based exam Administered at Pearson VUE test centers nationwide (USA) Total Time Duration 2 hours (120 minutes) Total Test Duration 1.5 hours (One hour and 50 minutes) Exam format Multiple-choice exam Number of choices available four possible answers Total Questions 90 questions (80 scored questions and 10 unscored questions.) Passing scaled score 1,400 Range of possible PTCE scores 1,000 to 1,600 Standard Fee for CPhT \$129 (Temporarily Reduced Fee \$115) Standard Fee for CSPT \$199 (Temporarily Reduced Fee \$185) Certification program name PTCB Certified Pharmacy Technician: CPhT PTCB Certification Content Outline 1. Medications 40% 2. Federal Requirements 12.5% 3. Patient Safety and Quality Assurance 26.25% 4. Order Entry and Processing 21.25% Check the PTCB Certificate Guidebook for more details, the link is below. Study Guide and Official Practice Test 2025 The Official PTCB Practice Exam® is designed to familiarize candidates with the Pharmacy Technician Certification Exam (PTCE). It is the only practice exam authorized by PTCB. Unlike other providers, The Official PTCB Practice Exam has the same look, feel, and functionality as the actual PTCE. The sole function of the practice exams is to provide familiarity with content, format, and structure. Many external resources may be helpful to individuals preparing for the Pharmacy Technician Certification Exam. PTCB does not recommend or endorse specific educational materials for pharmacy technicians but shares the following examples for informational purposes only: PTCB's updated PTCE will launch in January 2020, and we've updated the PTCB® Pharmaceutical Calculations Questions Exam Prep App to help you prepare. Available when users update the App for free on their device; choose the 2020 version or 2019 version after upgrading. Use the "Exam Builder" feature to select your own practice calculation questions based on item difficulty level. Disclaimer: Not affiliated with or endorsed by the Pharmacy Technician Certification Board, Inc.. PTCB is a registered trademark of the Pharmacy Technician Certification Board, Inc. and is used here solely for identification purposes. I've had numerous pharmacy technicians and future pharmacy technicians reach out to me over the years for more content to help them prepare for board exams. I'm happy to support more pharmacy peeps than just pharmacists. The biggest challenge for pharmacy technicians has been the PTCB® (Pharmacy Technician Certification Board) exam. We've gone through the content outline and have created a 100% free practice exam! We are confident that the Meded101 PTCB free practice test will help prepare you for the PTCB exam. Free - PTCB Practice Exam - Section 1 Free - PTCB Practice Exam - Section 2 Free - PTCB Practice Exam - Section 3 Free - Top 200 Drugs Study Guide PDF If you enjoy this free practice exam, you must have our PTCB pharmacology crossword puzzle book and PTCB Study Guide! Link to PTCB Study Guide Link to Pharmacy Technician Crossword Puzzles We've divided our PTCB free practice test into 3 different sections. Each section is 30 questions for a total of 90 questions. The format of the practice exam is multiple choice which is consistent with the actual PTCB exam. This will provide you with an excellent trial run and allow you to time yourself to ensure that you are setting a good pace to finish the exam efficiently. If you are looking for help studying pharmacology, I'd recommend checking out the Flippin' Pharmacology Flashcards on Amazon. They provide an excellent review of drug classification, adverse effects, mechanism of action, and much more! If you have questions/comments, feel free to reach out to me at I hope this helps all our pharmacy technician friends! Eric Christianson, PharmD, BCPS, BCGP Prepare for the Pharmacy Technician Certification Board (PTCB) exam with our comprehensive 90-question practice test. Designed by our team of pharmacy technician specialists and educators, this practice test covers all the essential topics you'll encounter on the actual PTCB exam. Make sure you have a quiet, distraction-free environment to take the test. Have a calculator, scratch paper, and a pencil or pen available. Read each question carefully and choose the best answer based on your knowledge. If you are unsure about an answer, make an educated guess and move on to the next question. Good luck on the practice test! Remember, the more you practice and study, the better prepared you will be for the actual PTCE. Please note that this practice test is not an official PTCE and is intended for study purposes only. The practice test consists of 90 multiple-choice questions, which includes 80 scored questions and 10 unscored questions. The unscored questions are randomly distributed throughout the test and do not affect your final score. For each question, you will be presented with four answer options (A, B, C, and D). Choose the best answer based on your knowledge and understanding of the subject matter. While the actual PTCE is a 2-hour exam, this practice test does not have a time limit. However, we recommend setting aside approximately 2 hours to complete the test in one sitting, simulating the actual exam conditions. Mock tests, like our PTCB Practice Test 1, simulate the real exam environment, helping you manage time and stress effectively. This practice can significantly boost your confidence and performance on the actual test day. Q: How many times can I take the practice test? A: You can take the PTCB 90-Question Practice Test as many times as needed. Each attempt will help reinforce your knowledge and improve your test-taking skills. Q: Are the questions on the practice test updated regularly? A: Yes, we ensure our questions are up-to-date with the latest PTCB exam standards and practices. 90 Questions / attemptOriginal Content110 minutes / TimedUnlimited Attempts500 full length questions100% FREE The Master PTCB Practice Exam includes 90 questions, which are randomly selected from a 500 question bank. You'll have UNLIMITED ATTEMPTS. Each time, the majority of the questions will be different. The test is presented in the same format as the national certification test. Similar to the real test: TimedScoredScore Report w/answersSame format as PTCBRandomized Sequence Q. How is this test better than the other online practice exams.A. The PTCB Master Practice Exam was carefully designed to mimic the official certification exam. There are 90 questions and 110 minutes to answer them. So, why is it a better resource to prepare with? The questions themselves are what's important. Most of the other test prep sites have weak questions and too little of math. They even give you a sample quiz before you buy that proves their questions are lame. They are basically selling you automated flash cards. Not to say that won't help you, it probably will. But, when you sit down for the test, you might not be as prepared as you could be.Q. What about a 100% pass guarantee?A. Many practice test sites (like MedPreps) even offer a pass guarantee gimmick. But, all that means is that if you fail the PTCB, they might extend your subscription if you qualify. This is merely false advertising and misleading. Instead of using predatory tactics, the exams on this site are just good. Period. No gimmicks. Pre Final #1Pre Final #2Final ExamFree Tests 1-5 Where would you like to go now?
