

I'm not robot!

### Contour Map Worksheet #2

Use the map to answer the questions below. Write your answers in the space provided.

1. What is the elevation at point A? \_\_\_\_\_
2. What is the elevation at point B? \_\_\_\_\_
3. What is the elevation at point C? \_\_\_\_\_
4. What is the elevation at point D? \_\_\_\_\_
5. What is the elevation at point E? \_\_\_\_\_
6. What is the elevation at point F? \_\_\_\_\_
7. What is the elevation at point G? \_\_\_\_\_
8. What is the elevation at point H? \_\_\_\_\_
9. What is the elevation at point I? \_\_\_\_\_
10. What is the elevation at point J? \_\_\_\_\_

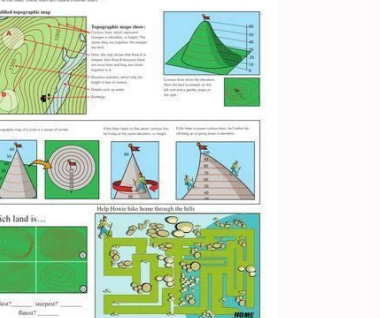

### Our US Map

Directions: Our country has 50 states. Can you find the states listed below? Look for them on the map, and color them in according to the chart.

State	Color	State	Color
Texas	brown	Florida	pink
Hawaii	green	Maine	orange
Alaska	blue	California	purple
Rhode Island	yellow	Oregon	green-blue
South Dakota	red	Kentucky	light blue

### Topographic Maps: Contour Lines

### Activity 3.3.1 Interpreting Weather Symbols

Rules for representing current conditions on a surface weather map:

- Each surface station is designated as a circle on the weather map.
- Current temperature in degrees Fahrenheit is displayed at the 11 o'clock position.
- Dewpoint is displayed at the 8 o'clock position.
- Precipitation type is displayed at the 9 o'clock position.
- Air pressure, reported to the nearest tenth of a millibar, is displayed at the 1 o'clock position. To read the air pressure, place a decimal point between the second and third number. Then add a 9 or 10 to the left so the resulting air pressure falls between 960 mb and 1050 mb.
- Wind direction is displayed as a shaft extending out from the circle and pointing in the direction from which the wind blows.
- Wind speed is displayed by the number of feathers or a pennant drawn on the clockwise side of the shaft. (Each full line = 10 knots or 11.5 mph / Each half line = 5 knots)
- Sky coverage is displayed by the percentage of the circle that is shaded in.

### The symbols and their meanings

**CLOUD COVERAGE**

	CLEAR		1/8		SCATTERED		3/8
	4/8		5/8		BROKEN		7/8
	OVERCAST		OBSCURED		MISSING		

**WIND SPEED (Each shaded triangle = 50 knots.)**

	9-14		21-25		84-89
	15-20		78-83		119-123

(Continued on side 2)  
Passport to Weather and Climate, Activity 3.3.1, Interpreting Weather Symbols

**EXERCISE 4**

**Problems on Contour Lines**

1. Study the map in Figure 4. Read the elevation of the contour lines. What is the elevation of the contour line that passes through point A? \_\_\_\_\_
2. What is the elevation of the contour line that passes through point B? \_\_\_\_\_
3. What is the elevation of the contour line that passes through point C? \_\_\_\_\_
4. What is the elevation of the contour line that passes through point D? \_\_\_\_\_
5. What is the elevation of the contour line that passes through point E? \_\_\_\_\_
6. What is the elevation of the contour line that passes through point F? \_\_\_\_\_
7. What is the elevation of the contour line that passes through point G? \_\_\_\_\_
8. What is the elevation of the contour line that passes through point H? \_\_\_\_\_
9. What is the elevation of the contour line that passes through point I? \_\_\_\_\_
10. What is the elevation of the contour line that passes through point J? \_\_\_\_\_

Topographic Map Reading Worksheet Answers What Topographic Map Worksheets For? Topographic map worksheets are activities, mostly for children, to always activate their brain during holidays. There are a lot of activities they can do during the holiday, such as coloring, fill the blanks, getting to know geography, and so forth. Parents like to give this activity sheet to keep the kids stay active and productive during the holiday. For instance, when they do the coloring sheets, not only will they know the names of the color, but also improve their creative traits. They can also learn about the maps of the world, and how the land affects the weather and season. People who learn a language also use these sheets to learn new vocabulary. Who Will Give Topographic Map Worksheets? Mostly, a school teacher is a person who will offer the prototype. But, as it is general knowledge, then, in the topographic map worksheets, it can be anybody. Your parents, for instance, want to expose you to the colors of the land's various heights. Some teachers will also give the sheets at Geography class, so the students will learn about the characteristics of the land. Teens and young adults do these activity sheets to learn maps of the world. Since this is a good game to activate your brain, some people will give this game for a party, gathering, and even in a classroom situation. Where Can I Get Topographic Map Worksheets for Free? These days, you can get the topographic map worksheets for free on online websites. Most of the contributors allow you to download it for free. Usually, you will find free printable sheets in the teacher's forum or free geography lesson sources. You can also find the sheets on the family forums and other kids-related activities website. You would be surprised when you found out what's on the website because they offer you different kinds of sheets. There are coloring sheets, fill the blanks, and so on. But, you still need to print the free activity sheets on your own. Topographic Map Worksheet Topographic Map Reading Worksheet Answers Topographic Map Worksheet Middle School Contour Lines Topographic Map Worksheets Topographic Map Worksheet Printable Topographic Map Legend And Symbols Printable World Map Quiz Printable Topography For Kids Printable Contour Lines Topographic Map Worksheets Can I Color Topographic Map Worksheets? Of course! You are free to color and fill in some blanks on the topographic map worksheets. Some templates are left black and white, meaning that you, especially students can give some color. Mostly, the sheets are meant to train students' brain development. As a result, they can differentiate different colors, introduce new vocabulary, get to know the lands, and so on. Children can color the template with colored pencils or non-toxic crayons for more vividness. Topo Map Tidbits Students are introduced to topographic maps and learn basic map colors, symbols, and lines. They complete worksheets that focus on topographic map symbols and colors and then locate examples of these symbols on topographic maps. Click here for Visual Resource: Reading Contour Lines, Click here for Visual Resource: Common Topo Map Colors and Symbols. Topo Bingo Students become familiar with topographic map symbols through a fun, bingo-like game using portions of different topographic maps. Stream Order Students learn how to determine stream order using topographic maps and then use this knowledge to complete worksheets and determine stream order on topographic maps. Click here for Visual Resource file, Leboeuf Creek Key, Elk Creek Key, Little Conneauttee Key, Mackey Run Key, Temple Run Key, Wolf Run Key Stream Length Students learn how to determine stream length on a topographic map using a map wheel or string. Worksheet Topography Students learn about contour lines, elevation, and land forms in the context of watershed topography via three-dimensional models and visual aids. They then use this knowledge to complete worksheets and drawings of topographic maps. Click here for Visual Resource, click here for Contour Model Keys. Stream Gradient Students use map wheels, topographic maps, reading elevation and contour lines and graphing skills to determine stream gradient. Stream Gradient Blank Graph Sheet and Resources Watershed Delineation Students use prominent topographic map features to delineate the boundaries of a watershed. Click here for Visual Resource (Figures 1 - 7.) and Contour Model Map Watershed Area Students learn three methods to determine the area of a watershed on a topographic map and then practice these methods on worksheets or using topographic maps. Planimeter Handout and Graph Paper. Watershed Area Calibration Sheet Land Use in Watersheds Students use topographic maps to complete a worksheet focusing on the potential effects of land use in watersheds. One Hilltop, Three Major Watersheds! Students use skills from other Topographic Map Module activities to pinpoint the one hilltop from which runoff flows into three different major Pennsylvania watersheds. Click here for Visual Resource. Topo Map Explorer Students review the major concepts of the Topographic Map Module by navigating through a series of scenarios on a worksheet. Module Resource Guide Information: Additional Module Resources Topographic map Fact Sheets, relevant articles, other teaching resources and information about ordering topographic maps from the US Geologic Survey as well as a list of top map web sites are included in this section. General Activity Information A list of module activities and an explanation of the activity format (layout). Activities Specific to the topographic map theme, these activities include all the necessary background information for teachers to pick up the activity and do the lesson in their classrooms. Related Websites: Online Topographic and Relief Maps TopoView Pennsylvania Topography 3-D Relief Map Relief Global Slide Topo Map Activities Map Reading Activity: Topography #1 Map Reading Activity: Topography #2 Ordering Topographic Maps USGS Maps Order Form TO USE THIS EQUIPMENT: Step 1: Check Module Availability Step 2: Complete Our On-line Request Form Have you ever looked at a map and noticed a bunch of curvy, weird-shaped lines? Those are contour lines! This geography worksheet introduces topography for kids. Using a simple topographical map and a helpful cross-sectional diagram, students will have to respond to several short-answer questions about topography. This pairs well with the fourth-grade social studies curriculum.
