All rights reserved Terms of Use Privacy Policy GESAAC (Gestione Servizi Aeroportuali Campani) la società di gestione degli aeroporti di Napoli e Salerno. L'Aeroporto di Napoli, principale gateway del Mezzogiorno, che ha registrato 12,7 milioni di passeggeri nel 2024, offre collegamenti diretti per oltre 120 destinazioni servite da 39 compagnie aeree. In particolare, nel corso di questanno saranno operative 43 frequenze settimanali dirette verso sei aeroporti nordamericani: Atlanta, Chicago, Miami, New York/Newark, New York JFK e Philadelphia. Napoli il primo aeroporto italiano ad aver ottenuto IACA 5, il massimo livello di certificazione ambientale in ambito aeroportuale. Secondo un autorevole studio, inoltre, lo scalo contribuisce al 4,2% del PIL regionale, generando circa 112.000 posti di lavoro. L'Aeroporto di Salerno Costa d'Amalfi, operativo dall'11 luglio 2024, offre un network di qualic con voli di linea serviti dalle principali compagnie europee, oltre a numerosi voli charter e privati, per un totale di 18 destinazioni offerte da 8 compagnie aeree. Attualmente sono in corso significativi lavori infrastrutturali volti alla realizzazione dei nuovi terminali di aviazione generale e commerciale. Il futuro terminal passeggeri, che si estenderà su una superficie di circa 16.000 mq, progettato secondo i più elevati standard ambientali, con soluzioni di efficientamento energetico e l'impiego di materiali sostenibili, in armonia con il territorio. According to 2023 data,[5] the airport is the fourth-busiest airport in Italy and the busiest in Southern Italy. The airport serves as a base for easyJet, Ryanair, Volotea and Wizzair.[6][7] Located 3.2NM (5.9km; 3.7mi) north-northeast[1] of the city in the Naples, the airport is officially named Aeroporto di Napoli-Capodichino Ugo Niutta, after decorated WWI pilot Ugo Niutta. The airport covers 233 hectares (576 acres) of land and contains one runway.[8][The district of Capodichino in the area known as "Campo di Marte" hosted the first flight exhibitions in Naples in 1910. During the First World War, "Campo di Marte" became a military airport in order to defend the town against Austro-Hungarian and German air attacks. [citation needed]During World War II, it was used as a combat airfield by the United States Army Air Forces and the Royal Air Force extensively during the Italian Campaign. The airfield was first used by RAF No. 324 Wing with its five squadrons of Supermarine Spitfires in 1943. It was then used by the US Twelfth Air Force which stationed the following units at the airport: 79th Fighter Group (January/May 1944, P-40 Warhawk/P-47 Thunderbolt); 47th Bombardment Group (March/April 1944, A-20 Havoc); 33d Fighter Group (April/May 1944, P-40 Warhawk), 332nd FG (15 Apr 44 - 28 Mar 44, P-39 Airacobra). When the combat units moved out, Air Transport Command used the airport as a major transshipment hub for cargo, transiting aircraft and personnel for the remainder of the war.[9]Commercial traffic started in 1950. In 1980, GE.S.A.C. ("Gestione Servizi Aeroportuo Capodichino") was established to administer the airport; in 1982, it became "Gestione Servizi Aeroporti Campani" and participated in by the City Council, the province of Naples and Altitalia. In 1995, GE.S.A.C. drew up with BAA assistance a new master plan, which marked the beginning of a twenty-year development plan.[citation needed]In June 2005, Eurofly began seasonal service to New York City using Airbus A330s. This was the airport's first transatlantic flight.[10][11] In 2010, the airline merged with Meridiana to form Meridiana Fly, which maintained the route.[12] The service ceased in 2017 ahead of Meridiana Fly's rebranding as Air Italy.[13] In May 2019, United Airlines launched seasonal flights to Newark aboard a Boeing 767-114. Then in May 2024, Delta Air Lines launched seasonal flights from New York J.F.K. also with a 767-115) followed by American Airlines from Philadelphia with a 787 a month later.[16]The airport is class 4D ICAO and has the classification of military airport opened to commercial air traffic 24 hours/day. The airport management company is fully responsible for managing the airport and coordinating and control activities of all the private operators present in the airport. Capodichino hosts some aeronautical industrial activities like Aitech, Alenia Aeronautica, Aerovallp, Tecnam Costruzioni Aeronautica.[citation needed]The airport has one terminal building, Terminal 1 with airside sections A, B and C handling all domestic and international flights. The landside ground level features the check-in and arrivals areas while the upper level features the main departures area A with most shops. The airside ground level contains sections B and C, with the latter being used for non-Schengen departures. As the airport does not feature jet-bridges, buses (or in a few instances walk boarding) are in use. Several areas of the terminal have been refurbished and expanded in recent years.[citation needed]The airport has a single runway (orientation: 06/24 2,628m 45m (8,622ft 148ft) resistance: PCN90/F/B/W/T with assistance: PAPI, ILS) in bituminous conglomerate and concrete, with one taxiway.[17] There is one apron with 29 stands, 9 of which are self-manoeuvring and the remaining are Push Back.[citation needed]The following airlines operate regular scheduled and charter flights at Naples Airport:AirlinesDestinations Aegean Airlines Athens[18] Aer Lingus Seasonal: Dublin[19] Air Arabia
