The digital files downloaded to your computer contain font software that is the intellectual property of the font's respective designer, represented herein by Lineto. License LINETO Type FoundryEnd User License Agreement! This is a contract between you and Lineto. Once you have downloaded onto your computer any of the font(s) from our website lineto.com using credit card payment, you accept that those goods are non-returnable and non-refundable. These computers can be connected to, and the font software used with, any number of output devices, such as a laser printer, ink jet printer, an imagesetter or a film recorder, but the font software may be downloaded to the memory (hard disk or RAM) of only one (1) output device for the purpose of having such font software remain resident in the output device. 2. You may take a copy of the font(s) you have used for a particular file to a commercial printer, a service bureau or other pre-press facility, *ONLY* if such service facility already has a valid license from Lineto to use that particular font software. 3. You are not authorized to sublicense, sell, lend or lease the font software, but you may permanently transfer your rights under this License Agreement to a third party; provided that: a) you transfer your copy of this Agreement, the font software, and all original documentation (including proof of purchase) to the third party, b) the receiving party accepts the terms and conditions of this Agreement, c) you refrain from using the software consequently and destroy all of your copies of the font software, d) you notify Lineto by email that such rights have been successfully transferred to a third party, stating the full name and the complete contact details of such third party. 4. You may convert and install the font software into another format for use in other environments, subject to the following conditions: a) A computer on which the converted font software is used or installed shall be considered as one of your permitted number of computers. b) Use of the font software you have converted shall be pursuant to all the terms and conditions of this license agreement. c) Such converted font software may be used for your own customary internal business or personal use exclusively and may not be sold, distributed or transferred for any purpose. d) You may not modify or remove the name(s) of the font software, author's signature, copyright and trademark notices from the original files, or change the embedding settings of the font(s). Upon full payment of the agreed-upon usage fee, Lineto grants the licensee the non-exclusive, non-transferable right to simultaneously use or store the Font Software - provided said software has been released at time of delivery or upon payment made by the licensee - on a maximum of five (5) computers at one single geographical location stipulated by the licensee. 2. In the event that extensions to the above-mentioned restriction become necessary, the licensee must purchase additional licenses. 3. The licensee may install the Font Software on a single file server for Use on a single Local Area Network (LAN) *ONLY* when the Use of such Font Software is limited to the Workstations and printers that are part of the licensed Unit of which the server is part. For the purpose of determining the proper number of Workstations for which a License is needed, the following example is supplied for illustration purposes only: If there are 100 Workstations connected to the server, with no more than 10 Workstations either using this Font Software (the Fonts) currently, but the fonts will be used on 25 different Work-stations at various points in time, a Site License must be obtained creating a licensed unit for 25 Workstations. 4. The Font Software may NOT be installed or used on a server that can be accessed via the Internet or other external network system (a system other than LAN) by Workstations which are not part of the licensed Unit. 5. If the Font Software is intended to be used for commercial purposes, each individual license permits one additional usage (installation) on a personal home or portable computer. 6.
