Hickory family practice hickory pa

Our independently owned physician group was founded in 1995 by ten primary care physicians in the South Hills of Pittsburgh. These physicians shared a common commitment to provide the highest quality care to the patients that it served. Their ingenuity and expertise laid the foundation for Preferred Primary Care Physicians (Preferred), now a growing practice with more than 70 providers and more than 25 locations in the greater Pittsburgh area. Independence Has Its Advantages Independent, doctor-owned and devoted to an exceptional patient-physician relationship, Preferred is both driven and nimble. Looking to implement advances to the practice infrastructure and adopt programs that raise the levels of care even higher. Some examples of this forward-thinking mindset include: Internal restructuring to focus on the value of care, not the volume of fees Adoption of Electronic Health Records to leverage access to patient data Instituting the exclusive Preferred First extended-hours patient call center Expanding our practice locations. Especially into underserved communities Launching a Senior Care coverage model for Medicare patients Fostering a diverse, equitable, inclusive workforce Total Care Means Healthier Communities These elevated levels of service are supported by our team-based approach, comprehensive clinical programs, and state-of-the-art outpatient centers. From providing general primary care to managing chronic conditions, our total range of care includes: Why is a Pittsburgh-based, independent practice positioned on the leading edge of patient care advances? Because we believe in doing health care in a different, and better, way. You might call it the preferred way. Medicare Program: Medicare is a federal government program which provides health insurance to people who are 65 or older. This program also covers certain younger people with disabilities (who receive Social Security Disability Insurance - SSDI), and people with End-Stage Renal Disease (permanent kidney failure requiring dialysis or a transplant, sometimes called ESRD. Medicare Assignment: Assignment means that your doctor, provider, or supplier agrees (or is required by law) to accept the Medicare-approved amount as full payment for covered services. Most doctors, providers, and suppliers accept assignment, but you should always check to make sure. Participating providers have signed an agreement to accept assignment for all Medicare-covered services. NPI Number: The National Provider Identifier (NPI) is a unique identification number for covered health care providers. The NPI must be used in lieu of legacy provider identifiers in the HIPAA standards transactions. Covered health care providers and all health plans and health care clearinghouses must use the NPIs in the administrative and financial transactions adopted under HIPAA (Health Insurance Portability and Accountability Act). Our Data: Information on www.medicarelist.com is built using data sources published by Centers for Medicare & Medicaid Services (CMS) under Freedom of Information Act (FOIA). The information disclosed on the NPI Registry are FOIA-disclosable and are required to be disclosed under the FOIA and the eFOIA amendments to the FOIA. There is no way to 'opt out' or 'suppress' the NPPES record data for health care providers with active NPIs. Home Disclaimer Privacy Policy Preferred First™ is the new, ground-breaking service offered to patients of Preferred Primary Care Physicians (Preferred). Until now, physicians and patients were frustrated by those ever-changing, no-two-days-are-the-same "office hours." Well, we've broken that annoying habit with the introduction of the Preferred First extended hours call center. Convenient hours, day or night. Call 1-855-PPCP-DOC. (That's 1-855-772-7362.) 4:30 p.m. to 11:00 p.m. - Monday through Friday 8:00 a.m. to 5:00 p.m. - Saturday and Sunday Now you have a direct line to an experienced registered nurse who is ready to help you long after the office closes. Whether you are at home, on the beach, in a tent or at the game, when a medical need or concern arises, call Preferred First. No Problem Is Too Small No matter what the problem is, if you are concerned, so are we. We will never judge or dismiss your needs. Your health is our priority, and we are dedicated to offering the guidance and care options that will keep you in the best of health. Often, when medical needs or concerns arise, patients simply need reassurance more than anything. By reviewing your medical records while we talk, we are able to: provide individualized advice and/or care options, recommend over-the-counter solutions, set up an immediate telehealth visit with a Preferred nurse practitioner or a Preferred physician, schedule a next-day in-office appointment, or direct you to seek immediate care in an emergency. Comprehensive and Cost-Effective Care Plus, with Preferred First, you can be sure the care we provide will maintain your health in the most cost-effective manner and stay within your insurance coverage. For instance, in addition to the health risk of sitting in a crowded urgent care waiting room, you run the financial risk of uncovered costs for the initial visit, as well as for any follow-up visits to a specialist or surgeon that the urgent care may schedule. And even more importantly, the overall continuity of your care is disrupted when you see outside service providers who do not update your records or keep your Preferred physician aware of the care you received. It's different, it's better, it's first. The Preferred First extended hours call center. Call 1-855-PPCP-DOC. (That's 1-855-772-7362.) We've detected that JavaScript is disabled in this browser.
